BULLETIN CO. (LTD.)  
EDMONTON BULLETIN, PRINTED BY THE  
BULLETIN CO. (LTD.)

THE FOLLOWING NOTICE WHICH APPEARS  
in a recent issue of the Canada  
Gazette, is a sample of the trouble to  
which the present administration of  
the department of interior will go in  
order to meet the cases of deserving  
settlers who unknowingly have fallen  
foul of some reserve or regulation.  
While it is of course impossible to  
meet the wishes of everyone, this case  
shows (and there are hundreds of  
others) how anxious the department  
is to protect the interests of actual  
settlers. Whatever may be the short-  
comings of the present administration,  
—and the BULLETIN has not been  
backward in pointing them out—their  
handling of settlers' lands is entirely  
to their credit, and in sharp contrast  
to the methods and manners of their  
predecessors.

On a report, dated 5th December,  
1898, from the minister of the interior,  
stating that Robert John Kerr squatted  
some years ago upon the north-  
west quarter section 35, township 4,  
range 29, west of the 4th meridian,  
which land has been scheduled to the  
Calgary & Edmonton Railway Company  
as a portion of that company's  
land grant, and assigned by them to the  
Calgary & Edmonton Land Company,  
Limited. Mr. Kerr is desirous of  
making homestead entry for this  
quarter-section and of purchasing from  
the railway company the northeast  
quarter of section 34 in the same  
township.

The minister further states that the  
last mentioned land is vacant and  
available, with the exception of legal  
sub-divisions 10 and 15 which were  
included in a schedule of lands reserved  
for stock-watering purposes by  
order-in-council of the 21st September,  
1897.

The minister recommends, in order  
to carry out Mr. Kerr's wishes, that  
legal sub-divisions 10 to 15 in the  
said section 34 be withdrawn from the  
list of reserves for stock-watering,  
and the southwest quarter of the same  
section substituted therefor; that the  
northeast quarter section 34 be granted  
to the Calgary & Edmonton Land  
Company, Limited, as a portion of the  
land grant to the Calgary & Edmonton  
Railway Company, on the former  
mentioned company filing here a satis-  
factory quit claim deed vesting the  
said northwest quarter of section 35  
in Her Majesty Queen Victoria in  
order that the same may be home-  
steaded by Robert John Kerr.

## THE BRIDGE

The town council are in receipt of a  
letter from the minister of public  
works dated, Ottawa, Feb. 8th, which  
says:

"The Dominion Bridge Co. are  
now actively at work. I am not yet  
in a position to know exactly the date  
at which they will deliver the material  
of the bridge. But of course the  
bridge will be completed during the  
next summer season."

In a letter to F. Oliver, M. P., dated  
Feb. 10th, the Hon. Mr. Tarte says:

"I am to-day in a position to tell  
you that the shipment of the material  
for the bridge will be made as follows:  
1st June, 15th June, 1st July, and  
15th July; in other words there will  
be four shipments. I received the in-  
formation this morning from the  
Dominion Bridge Co."

## FROM DEASE RIVER.

Thos. Henderson, of Rabbit Hill,  
who reached home from the Liard  
river by way of Vancouver on Monday  
last, left Edmonton last spring with  
three other prospectors bound for the  
upper Liard. They went down the  
Athabasca and Great Slave rivers by  
boat, and up the Liard to the mouth of  
the Dease. Thos. Henderson left the  
rest of the party to continue their  
way up the Frances river and over to  
the Pelly next spring while he came  
out to the coast at Wrangell over the  
ice. His course was up the Dease,  
through the Cassiar mining district to  
Dease lake, then by trail, 75 miles, to  
Glenora, on the Stikine, and down  
the Stikine, 150 miles, to the coast.  
From Wrangell to Vancouver was an  
easy passage by ocean steamer. Mr.  
Henderson brought a letter from A. D.  
Osborne to his son, F. A. Osborne,  
customs collector at Edmonton. Mr.  
Osborne, who had travelled overland,  
had reached Sylvester's lower post, at  
the mouth of Dease river, and 150  
miles from Pelly river. He was  
wintering there and intended to go on  
to the Pelly in the spring. He was in  
good health and spirits. The letter  
was dated at the time Mr. Henderson  
saw him, about Oct. 15th. There was  
then about two inches of snow on the  
ground. The horses were in a good  
country for winter feed, and were  
doing well. Geddes, who had taken  
the same route as Osborne by way of  
Fort Nelson, was also wintering there  
with his band of cattle. He had had  
little or no losses. Mr. Henderson

saw Dan McRae at McDamo's Creek  
in Cassiar. McRae mined on the  
Saskatchewan for many years and was  
the man who made the \$30 a day  
strike on the Finlay last summer.

## SEED GRAIN.

EDITOR BULLETIN.

For the past ten years systematic  
efforts have been made to increase the  
average returns and to improve the  
quality of the cereals and other im-  
portant farm crops grown in Canada,  
by an annual distribution from the  
experimental farm at Ottawa, of  
samples of seed of the best and most  
promising sorts. These varieties have  
been first tested at the experimental  
farms and only those which have  
proven to be the very best have been  
chosen for this distribution. The  
samples sent out have contained three  
counies each, and every presentation  
has been taken to have the seed in  
every instance thoroughly clean and  
true to name, and the packages have  
been sent free through the mail. Those  
who have received such samples, and  
grown them with care, have usually  
had at the end of the second year  
enough seed to sow a large area, and  
in this manner careful farmers all  
over the Dominion have been gradu-  
ally replacing any inferior and less  
productive sorts which they have  
been growing in the past, with super-  
ior varieties possessing greatest vigor.

By instruction of the hon. minister  
of agriculture, another such distribu-  
tion is being made this season, con-  
sisting of samples of oats, barley,  
spring wheat, field peas, Indian corn,  
and potatoes. These samples will be  
sent only to those who apply person-  
ally. Lists of names from societies  
or individuals cannot be considered,  
and only one sample in all can be  
sent to each applicant. Applications  
should be addressed to the director of  
experimental farms, and may be sent  
any time before the 15th March, after  
which the lists will be closed, so that  
all samples asked for may be sent out  
in good time for sowing. Parties  
writing will kindly mention the sort  
or variety they would prefer, and  
should the available stock of the sort  
asked for be exhausted, some other  
good variety will be sent in its place.

WM. SAUNDERS,  
Director.

Central Experimental Farm,  
Ottawa, February 9th, 1899.

**BUTTER.**  
The weather is pleasant and warm; snow nearly all gone. Mr. MacKenzie is preparing to build a new house on his claim. He is away getting logs ready for Mr. Dennis's sawmill when it starts sawing. Eugene Paulin, his wife, and Henry Paulin and sister, have just returned from a two week's visit to St. Albert. They report having had an enjoyable time. Mr. Pichey took a beef cow to Edmonton last week that brought him \$47 cash. Who will say there is no money in cattle raising? Mr. Dennis has gone to Edmonton with 27 head of hogs. He is getting ready to start his sawmill immediately on its arrival. Mr. Paulin, Mr. Pichey, and Mr. Dennis are all expecting to get new drills this spring. We hope to see some good crops again. Feb. 5th, 1899.

**FUR.**  
McMillan's fur circular for February says:  
Receipts are large. The market is very active for most varieties. Since the season started there has been great competition for furs, and prices on a good many kinds have advanced heavily. The London, January, sales were a great disappointment on badger, bear, beaver, and muskrat, and the advances had been more than anticipated on all kinds except marten. The March London sale will be from 14th to 24th. The Hudson's Bay Co. will then offer their entire year's collection, except beaver and muskrat, which is sold in January. In the general London sales in March all kinds of furs will be offered, including silver fox, silver otter, silver fox, and cross for which were not sold in January. The March sale is the most important of the year, and furs should be shipped in promptly

during the next four weeks, so that shipping varieties can go by express into that sale. At the March sale buyers supply the bulk of their wants and a good many kinds have been carried over for from nine months to a year. When too late to ship exporters will greatly reduce their prices, and the quality of the furs, except the water animals, grows poorer as the season advances. There are large orders for mink at the advanced prices, especially dark mink. Wolf can also be used. Wolf are higher than last year. Muskrat are plentiful and buyers are filled up with the stocks previously on hand and the recent shipments. Muskrat cannot improve and will do well if they hold their own.
